**DETAILED ACTION**

1. After a thorough search and examination of the present application, and in light of the prior art made of record and Applicant's Amendments and Remarks filed January 5, 2006, Claims 1-20 and 23-24 are allowed.

***Priority***

2. It is acknowledged and considered that a reference to the prior Application No. 60/153,099, filed September 9, 1999 has been inserted as the first sentence(s) of the specification of this application to rely on the filing date of the prior application under 35 U.S.C. § 119(e).

***Drawings***

3. The drawings filed July 1, 2004 are accepted.

***Reason for Allowable***

4. The following is an examiner's statement of reasons for allowance:

In the Examiner's Office Action for non-Final Rejection of October 12, 2005, 35 U.S.C. 35 U.S.C. § 103, rejections was primarily based on the reference of Oracle@ Applications, Concepts, Release 11i, May 2000, Oracle Corporation, (hereafter "OraCon") and in view of Oracle Engineering User Guide, Release 11i, January 2000, Oracle@, (hereafter "OraEng"); Using Oracle US Federal HRMS - The Fundamentals, Release 11i, January 2000, Oracle@, (hereafter "OraHR"); and Oracle Purchasing User's Guide, Release 11i, January 2000, (hereafter "OraPO").

In the Remarks and Amendments filed January 5, 2006, concerning combining the four Oracle@ Financial Applications, Release 11i documents (OraCon, OraEng, OraHR

Art Unit: 2167

and OraPO), the Applicant argued that there is no suggestion or motivation for the combination nor the combination of the primary Oracon reference, the secondary OraEng reference, the tertiary OraHR reference, and the quaternary OraPO reference that would produce the specific combination of elements of Applicants' amended claims 1-20, 23, and 24. Further, the Applicant argued there is no teaching of combining the primary Oracon reference, the secondary OraEng reference, the tertiary OraHR reference, and the quaternary OraPO reference to meet Applicants' amended claims 1-20, 23, and 24 now presented for examination.

After further review of the search results previously conducted and Applicant's most currently amended claims, and consideration of the above Remarks and amended claims 1 and 16, the Examiner is persuaded that the prior art made of record does not teach the subject matter as combined in the elements of each of the independent claims 1 and 16 as described above.

An expanded and update search for the prior arts on EAST database and on domains (EAST, NPL-ACM, Google, NPL-IEEE, Oracle.com) has been conducted. The prior arts searched and investigated in the database and domains does not fairly teach or suggest the teaching of the claimed subject matter as reflected by the combined elements in the independent claims 1 and 16.

The dependent claims in the groups (2-15) and (17-20 and 23-24), depending claims 1 and 16, respectively, also distinct from the prior art for the same reason.

Art Unit: 2167
